Room Temperature Cure Structural Adhesives

High-performing structural bond.

The L&L Bond A-K Series of structural adhesives are a range of high performance, room-temperature curing paste materials formulated to provide durable, high-strength structural bonds on a wide variety of substrates.

Two-component, fast curing structural adhesives are in widespread use in a number of industries such as the automotive, commercial vehicle, rail transport, wind energy, where they provide structural bonds in assemblies that require joining of many different materials.

The L&L Bond A-K Series offers grades for a variety of demanding requirements to offer the optimum adhesive for each application.

KEY PRODUCT ATTRIBUTES

- Robust primerless adhesion to composites and metals for optimum structural performance
- Low shrinkage for reduced rework on bonded structures
- Wide range of cure speeds
- High tensile strength and elongation
- The A-K Series is available in a variety of thixotropy levels to suit specific application requirements
- Available in cartridges, pails, drum
- Fixture times up to 50% faster than similar open time competitive adhesives
