

T-LINK TECHNOLOGY

BEYOND LIMITS

An advanced engineering thermoplastic resin with excellent adhesive properties for ultimate performance and processability.

PELLETS

CREATE STRONGER COMPOSITE REINFORCEMENT

T-Link™ comes in pellet form and is typically used in other formulations as a toughener. Our resin is unique in that it has a high strain-to-failure and exhibits excellent adhesive properties.

These attributes make T-Link™ resin an ideal solution for composite manufacturers that are seeking a highly customizable composite reinforcement that will be strong and not suffer from brittle failure.

Melt Index (dg/min @ 190°C)

PRODUCT	GRADES	WHAT DOES IT ENABLE
---------	--------	---------------------

PELLETS (L-TE01)

- 10 Melt Index*
- 30 Melt Index*

- Can be used as a base resin or modifier in formulated products

* Commercially Available

KEY PRODUCT ATTRIBUTES

- Injection moldable/extrudable
- Long shelf life
- Fully thermoplastic
- Recyclable
- High strength, rigidity, and toughness
- High strain-to-failure up to 40%
