

DECİ-TEX®

PREMIUM ACOUSTIC AND THERMAL FIBER-BASED TECHNOLOGY.

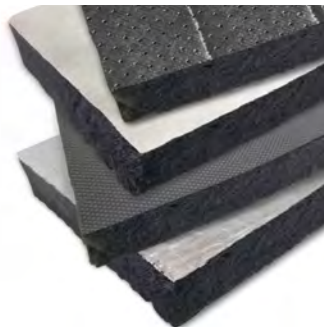

The DECİ-TEX® platform is a nonwoven fiber-based acoustic and thermal technology that yields a broad range of products, all being tunable for customer-specific applications.

decitex.llproducts.com

THE LIGHTWEIGHT INSULATION SOLUTION WITH SUPERIOR PERFORMANCE.

DECI-TEX® delivers premium acoustic and thermal performance at lower weights and thicknesses. DECI-TEX® materials yield high resilience and achieve superior mechanical integrity over other forms of nonwoven insulation.

DECI-TEX® can be used in markets such as aerospace, architectural, automotive, commercial vehicle, industrial, and rail industries.

PRODUCT CATEGORIES

DECI-TEX® T-SERIES

Fiber-based thermoformable solution for acoustic applications.

DECI-TEX® V-SERIES

Vertically lapped fiber-based solution for thermal and acoustic applications.

KEY PRODUCT ATTRIBUTES

EXCELLENT PERFORMANCE

High performance acoustic and thermal insulation at very low densities and part weights.

DESIGN FLEXIBILITY

Multiple forms to suit application requirements, including flat-cut sheets and thermoformed parts.

DURABLE PERFORMANCE

High resilience and achieve superior mechanical integrity over other forms of nonwoven insulation. Water, UV, and fire resistant.*

**Most materials meet FMVSS 302 for flammability at a minimum. Properties and performance will vary.*
